

FERTILISERS

Growing media fertilisers

OSMOCOTE 5th Gen, S-Curved 16-8-12+2MgO+TE 25kg
Next generation programmed release fertiliser
Available in 12-14M longevity

More efficient and effective uptake of applied plant nutrition, matching the NPK release pattern and the plant's needs with more precision than ever before.

- Best possible plant colour, health and growth with the improved trace element delivery system
- Optimising the availability of trace elements in the growing media and their uptake by plants (OTEA System)
- Highest nutrient release efficiency
- Highest safety for plants
- Highest consistency: every bag of the product is identical
- Coloured granules for longevity recognition

Outfield fertilisers

FLORANID TWIN PERMANENT 16-7-15 (+2MgO) 25kg FERT08

Floranid Twin Permanent is a universal long-term, slow-release fertiliser for use on turf in various applications (sports turf, golf, ornamental and leisure turf). The balanced nutrient composition is also ideal for the use in ornamental plants, trees, shrubs, and commercial horticulture.

Controlled nitrogen release over a period of up to 4 months.

LANDSCAPER PRO 15kg RENO01

14-0-5 + 6% Ferrous Sulphate +MCPA +Mecoprop-P

Triple action, mini granular weed, feed, and moss control. Ideal during spring and summer period when broad-leaved weeds are present and need controlling in one application.

Apply from March until September. Area treated by a 15kg bag: 430m²

WESTLAND AFTERCUT 16kg AFTE01

10-2-2 +2,4-D +Mecoprop-P +Dicamba +Ferrous Sulphate

Aftercut All In One Lawn Feed, Weed & Moss Killer is a triple action lawn treatment that greens and feeds your lawn, whilst controlling weeds and moss.

Stimulates growth, kills moss & eradicates weeds. Area treated by a 16kg bag: 500m²

Greens fertilisers

BASFOLIAR FERRO TOP SL LIQUID 15N +8% FE 10L FERR10

Nitrogen fertiliser solution, N(S), 15(+4), with sulphur, iron, copper, and manganese for intensive and rapid greening of lawns. Extremely fast and reliable cure of iron deficiency. Improved turf vitality and resistance against moss.

Application rate: 10-40l/ha.

FERRO TOP 6-0-12 (+6MgO+8Fe) 25kg FERR11

Ferro Top is an iron specialty fertiliser with high contents of potash and magnesium as well as manganese to promote quality, resistance, and colour. The turf is better protected against weather influences and fungal diseases. Ferro Top displaces moss and protects against new settlement. Can be used all year.

Granular fertilisers

BLAUKORN 12-12-17 +TE 25kg BLAU01

Granulated complex fertiliser with potassium sulphate (SOP) for basal and complementary dressings in chloride-sensitive crops and on salt-affected soils. For usage in horticulture and special crops, outdoors and under glass.

NOVATEC 12-12-17 (+2MgO +TE) 25kg NOVA01

Granulated solid inorganic macronutrient fertilizer for crops with high K demand. For use in horticulture, field crops and special crops, outdoors and under glass.

NOVATEC SUPREM 21-5-10 (+3MgO +TE) 25kg NOVA02

Granulated solid inorganic macronutrient fertilizer for crops with high N demand and for top dressing. For usage in horticulture, field crops and special crops, outdoors and under glass.

WETTING AGENT

KICK 2,5L KICK01

Liquid wetting agent concentrate for the acute and preventive treatment of dry spots on lawns and for dew control. Also suitable as a wetting agent when liquid fertilizers are used.

The Department of Agriculture, Food and Marine (DAFM) under the Sustainable Use Directive (SUD) requires us as pesticide distributors to supply Plant Protection Products in compliance with regulations. To keep and retain records relating to measures put in place in the future we'll have to ask our customers for their Herd number/Professional User (PU) number in order to sell professional pesticides.

HERBICIDES

KATOUN GOLD **5L** **KATO01**

Katoun Gold is a quick acting total herbicide derived from plant origins which degrades quickly. Fast results - effects visible within 2 hours.

Situations: Amenity vegetation (bare soil around trees and woody shrubs). Natural surfaces not intended to bear vegetation. Permeable surfaces overlying soil including gravel pathways. Forest nursery and hardy ornamental plant production.

Active substance: Pelargonic acid 500g/l

NEW WAY HERBICIDE **5L** **NEWW01**

New-Way Weed Spray is a non-selective herbicide with extremely fast activity controlling both grasses and broadleaved weeds. Can be used all year round.

The product is not translocated within the plant and therefore is safer to use around trees, shrubs, and other valuable plants.

Situations: natural surfaces not intended to bear vegetation. Permeable surfaces overlying soil. Hard surfaces.

Active substance: Acetic acid 240 g/l

PRIEST **5L** **PRIE01**

Selective, systemic, post-emergence herbicide for managed amenity turf, lawns and amenity grassland.

Active Substances: Fluroxypyr 100 g/l, Clopyralid 80 g/l, Florasulam 2.5 g/l

Rates: 1-2l/ha - see label

PREMIER AMENITY SELECTIVE **10L** **PREM06**

Premier Amenity is a broad-spectrum selective amenity herbicide.

Active substances: Mecoprop-P, MCPA and Dicamba.

Rate: 5lt/ha

KYLEO **15L** **KYLE01**

Fast acting herbicide for the control of annual and perennial weeds in stubbles, grassland (destruction), green cover on land not being used for crop production, orchards, hard surfaces (railway ballast only) and amenity vegetation.

Extended weed spectrum to manage touch to control weeds like thistles, mare's tails.

Active substances: Glyphosate 240 g/l, 2,4-D:160 g/l

Rates: 3-5l/ha - see label

LOCKSTAR

500gsm LOCK02

A residual, pre-emergent, herbicide that controls a broad spectrum of weeds. When applied prior to germination, depending on the weed species to be controlled, Valdor Flex keeps the soil weed free for up to 4 months. If weeds are present, can be mixed with glyphosate or a fatty acid to achieve control of existing vegetation.

Active substances: Iodosulfuron-methyl-sodium, Diflufenican (DFF)

SCRUBKILLER ULTRA

1L SCRUB01

A foliar acting herbicide for the control of Nettles, Docks, Thistles, Brambles Broom & Gorse in established grassland & amenity grassland.

Active substances: Clopyralid, Triclopyr

Maximum individual dose is 1.2L/ha.

CLAYTON APT

50gsm APT01

Long-lasting total weed killer which, when used at the correct rate, will control most annual and perennial weeds for up to 6 months. For best results mix it with a glyphosate-based product. This will kill the weeds which are present at application and also lay a residual barrier which will prevent any future germination and leave the treated area weed free for an extended period of time.

Active substance: Flazasulfuron

DESTROL Total Weedkiller for Paths & Driveways 500ml DEST01

Ideal for spot spraying with a knapsack along fence lines, established trees, bushes and is perfect for weed control on pathways, farmyards, patios and driveways.

Biodegradable and safe for use around pets

Dilution Rate: 15 ml of product per 1 litre of water

Coverage Per Bottle: 500ml treats 1100 square metres

Active substances: Glyphosate, Diflufenican

Approved for amateur use.

INSECTICIDES

PROTAC SF

1L PROT44

Protac SF is a new residue free solution for pest control. It employs a purely physical mechanism to control crop pests. Protac SF contains polymeric substances, primarily silicone polymers. Once applied to crops, these compounds create a specific structure – a thin, sticky net – on the body surface of pests. On a molecular level, it is a three-dimensional polymeric net. The structure immediately immobilizes pests and rapidly eliminates them.

BOTANIGARD WP

500g BOTA01

BOTANIGARD WP is a microbiological insecticide based on the entomopathogenic fungus Beauveria bassiana strain GHA, a particularly aggressive strain. BOTANIGARD WP will contribute to glasshouse whitefly control as part of an IPM programme.

DECIS PROTECH

1L DECI02

Decis Protech - new formulation. A broad spectrum pyrethroid insecticide for the control of aphids, caterpillars, and a range of other pests in a wide range of agricultural and horticultural crops.

An oil-in-water emulsion containing 15 g/L deltamethrin.

SEQUOIA

200ml SEQU02

Fast-acting and consistent control of sap-feeding pests, including aphids, whiteflies, mealybugs, leafhoppers, and psyllids.

Active ingredient: 120 g/litre sulfoxaflor

PROVANTO Smart Bug Killer RTU

1L PROV01

Provanto Smart Bug Killer is a revolutionary insecticide that offers a new 3-in-1 action and provides long lasting protection on a range of ornamental and edible plants.

Pests stop feeding in one hour, results becoming visible within 24 hours.

Active ingredient: Flupyradifurone 0.08 g/l

Approved for amateur use.

FUNGICIDES

TAEGRO

375g/m TAEG01

Taegro is a microorganism-based fungicide formulated as a wettable powder containing 130 g/kg *Bacillus amyloliquifaciens* strain FZB24. For indoor use.

Taegro is labelled for a range of foliar diseases across several crops:

- Powdery mildew on cucurbitaceae
- Downy mildew on lettuce
- Powdery mildew and Early blight on solanaceae
- Grey mould on strawberry
- Grey mould and powdery mildew on grapevine

Application rate: 370 g/h

PROVANTO FUNGUS FIGHTER RTU

1L FUNG03

Provanto Fungus Fighter controls all major leaf diseases on roses, ornamental plants and selected edibles. Controls box blight as well as blackspot, mildew, rust, leaf spot and white rust.

Use on houseplants and ornamental garden plants.

Active ingredients: Tebuconazole 0.125 g/l; Trifloxystrobin 0.125 g/l

Approved for amateur use.

ADJUVANTS

SPRAYGARD

1L SPRA126

Spraygard is an emulsifiable concentrate formulation containing 400 g/l pinene oligomers (EAC 1) for use in tank mixture with agricultural and horticultural chemicals to improve their performance.

Spraygard may also be used as an anti-transpirant.

FORESTRY

FIXOR

1L FIXO01

New specialist plant growth regulator for apples with Extension of Authorisation for Minor use (EAMU) in Christmas trees, ornamental trees, shrubs, and flowers. Typically used on Christmas trees for leader control. Promotes side shoots.

EASY ROLLER (leader control in Christmas trees)

EASY03

EASY ROLLER REPLACEMENT ROLLS

EASY04

With an Easy Roller, you can quickly and efficiently regulate the growth of your Christmas tree tops with a minimal waste and targeted application of the growth regulator.

The Easy Roller consists of a canister with a harness and tubes, which are connected onto the can with a pump.

ROOTGROW PROFESSIONAL

5LTR/2.5L ROOT12/ROOT13

Rootgrow Professional - Mycorrhizal Fungi 5L

Can be used as a dry granule or a root dipping gel for bare root plants.

Comes with a handy 25ml measuring scoop and gel powder sachet.

SURFACE CLEANER

ENCLEAN MULTI SURFACE CLEANER

1L ENCL01

A multi surface biocide for cleaning hard surfaces.

Enclean removes algae and green deposits from hard surfaces and building materials.

• Asphalt • Block paving • Steel, aluminium • Concrete • Exterior wood • Glass • Plastic • Bricks •

Active ingredient: 500 g/l Nonanoic acid

Plant origin, non-corrosive, quickly degrades into natural elements.

TOOLS

CORONA HEDGE SHEARS

CORO01

For precision shaping and trimming of soft green growth, to more powerful cutting of thicker individual stems, these shears will create the perfect crisp finish.

Blade length 23cm. Handle length 33cm.

CORONA LOPPER

CORO02

The Corona Limb & Branch Lopper with ComfortGEL grip is the lightweight pruning tool built for comfortable cutting. Specially coated, non-stick blade provides enhanced cutting performance. Cuts up to 3.75cm.

Overall length 76cm.

CORONA GRASS SHEARS

CORO03

Swivel grass shear, with a rotating blade can be used at different angles - vertical for edging, horizontal for trimming, or angled for hard-to-reach areas.

Blade length 13.3cm.

CORONA DEADHEADING SNIP

CORO04

Compact, sharp stainless steel blades with double-bevelled tapered tips for precision cuts. Supplied with blade tip protector. Blade length 4.5cm.

CORONA BRANCH LOPPER

CORO05

Two-handed branch & stem pruner - Bypass Lopper
Lightweight. Forged tough. Proven performance. Season after season.
Forged, resharpenable bypass blade and hook.
Handle length 28.5cm.

CORONA LEAF RAKE BigLOAD

CORO06

The Corona BigLOAD Leaf Rake allows you to rake up to 2x faster than standard rakes. The unique head design maximises load capacity and is both lightweight and durable. 160cm aluminium handle with anti-slip vinyl grip for comfort. 76cm poly head with moulded ribbing on reverse. Handle extends through into rake head for added strength.

CORONA SPRING BRACE RAKE

CORO07

A-shaped head combines flexible tines with durability of high carbon steel
Bolt-thru head to handle connection.
Stress distribution bar prevents the 24 tines from twisting or breaking
Powder-coated frame and tines resist rust.
137cm long aluminium handle.
60cm head.

CORONA SHRUB & LEAF RAKE LittleLOAD

CORO09

The Corona LittleLOAD Shrub Rake allows you to rake up to 2x faster than standard rakes. The unique head design maximises load capacity and is both lightweight and durable. 160cm aluminium handle with anti-slip vinyl grip for comfort. 20.5cm poly head with moulded ribbing on reverse. Handle extends through into rake head for added strength.

CORONA LIMB & BRANCH LOPPER

CORO10

Dual compound lever provides added power.
Two-zone coated steel blades for small and large cuts.
Extreme comfort gel grips provide comfort.
Lightweight strong steel handles.
Shock guard bumper system.
Overall length 74-94cm.
Cuts up to 4.5cm.

CORONA HOE/CULTIVATOR

CORO11

91.5cm Extended Reach Hoe and Cultivator - ideal for raised beds and tight access locations. The hoe breaks through soil for deeper digging and tilling. The heavy duty 3 tine side of the tool cultivates the soil getting it ready for planting. Soft, ergonomic ComfortGEL grips.

CORONA 3 PRONG CULTIVATOR

CORO12

Strong tempered carbon steel head for weeding and cultivating soil.
Reinforced riveted connections to prevent handle wobble.
152.5cm lightweight handle in industrial-strength, non-slip aluminium, with oval cross-section for maximum strength.
Diamond-shaped prong tips for easy soil penetration and tilling.

CORONA HEDGE SHEARS EXTENDED HANDLES

CORO13

Minimise cutting effort with dual compound lever.
Reduced hand and shoulder fatigue with integrated ShockGUARD bumper system.
Specially coated, non-stick blades provide minimum resistance.
Soft, ergonomic ComfortGEL grips.
Extendable handles with innovative locking mechanism. Resharpenable blades.
Blade length 25cm.
Handle length 42.5-62.5cm.

CORONA BOW HEAD RAKE

CORO14

35.5cm bow-head design acts as spring for better control of tine depth, small head is ideal for working in close quarters.
14 extra-thick, curved, tempered carbon-steel tines for greater strength and long life.
Lightweight industrial strength aluminium, non-slip oval-shaped grip with polymer-coated handle for protection.
Reinforced riveted connection to prevent handle wobble.
152.5cm aluminium handle.

MOLDEX HALF FACE MASK & FILTER

MASK19/MASK20

The Moldex Ultra-Light Series 7000 Half Mask is extremely lightweight, the mask body is made from hypoallergenic material, which is gentle on the skin. The low-profile design offers excellent field of vision.
Easily accessible components for cleaning and maintenance.
Matching filter cartridges sold separately:
Pack of 2 Moldex EasyLock A1B1E1K1 Filters
