

# SPECIALIST CHEMICALS

## Spray Tank Enhancers / Adjuvants / Anti-foam Agents

### Activator 90

1L

code **ACTI01**

A premier, non-ionic wetter. This high quality, high concentration, low-foaming formulation can increase the performance of a wide range of chemicals.

### Codacide Oil

25L

code **CODA**

Natural vegetable oil adjuvant.

### Sprayfast

1L

code **SPRA30**

Di-1-p-menthene + safening system      Dilution rate 1ml/1L  
Improves performance of chemicals and makes sprays rainfast half an hour after drying, can also be used as an anti-transpirant.

#### Sprayfast – Adjuvants, Sticker and Tank Mix Safener benefits:

- Fast waterproofing of all Herbicides making them more effective.
- Showerproof once touch dry and rainfast 30 minutes later.
- Anti Dessicant – Reduces the amount of evaporation – transpiration from leaves.
- Persistence – Extended control of Fungicides and Insecticides by use of Sprayfast.
- Hot sunny weather – Sprayfast protects chemicals volatilisation.
- Especially valuable with Insecticides during summer months.
- Irrigated Crops – Apply Sprayfast before irrigation to fix pesticides in a water proof coating. Enables accurate timing of pesticide uptake.

### SW7

1L

code **SW7**

Silicone based wetter      0.2-0.5L/ha  
SW7 reduces water volumes to improve productivity, designed to give enhanced uptake of foliar nutrients.

### GU Anti-foaming Agent

1L

code **GU01**

Prevents and reduces foaming in spray applications

# SPECIALIST CHEMICALS

## Tank Cleaners / Surface Cleaners / Disinfectants

### All Clear Extra

5L

code **ALLC**

Spray Tank Cleaner

Sequestrants and Surfactants

500mls/100L

Specially formulated liquid sprayer cleaner which removes pesticide deposits in the tank.

### SpOtless

5L

code **SPOT**

SpOtless is a highly formulated cleaning agent for the cleaning and decontamination of spraying equipment. It is especially effective at clearing sticky formulations.

### pHixer

5L

code **PHIX**

pHixer is a specialist water conditioner that adjusts spray tank water to an optimum pH level of 4.0 - 5.0. pHixer contains chemical water conditioners that dissolve the carbonates in the spray solution to reduce their ability to react with pesticides or foliar feeds. pHixer also contains an indicator dye which turns pink when the water has achieved the ideal pH range.

### OmniGlass Glass Cleaner

25L

code **OMNI01**

A powerful glass cleaner to safely remove all deposits of algae, calcium, soot, dust, and other industrial soils from the exteriors and interiors of all greenhouses.

### Horti-Clenz

5kg/4.46L

code **HORT06**

25kg/22.32L

code **HORT07**

Peroxyacetic acid

Disinfectant against bacteria, moulds, fungi and viruses.

### Basamid

20kg

code **BASA01**

Dazomet

220-760kg/ha

Granular soil sterilant for use under glass, outdoor and in tunnels to control pests, nematodes, fungal diseases and weed seeds.

# SPECIALIST CHEMICALS

## Disinfectants / Surface Cleaners

### Jeyes Fluid

1L  
5L

code **JEYS01**  
code **JEYS**

Jeyes Fluid is a multi-purpose disinfectant for use on paths, patios and driveways.

### Mogeton

0.75kg

code **MOG001**

Quinoclamín

75g/5L-10L

Surface cleaner and Moss Killer. Controls weathering deposits on paths, walls and greenhouses

### MMC-PRO

5L

code **MMCP**

#### Multisurface Mould Cleaner

Dilute from 1:4 to 1:9

For all exterior hard surfaces eg. brickwork, masonry, driveways and synthetic sport surfaces.

Kills mould, algae and moss.

### Sulphur 99.8%

25kg

code **SULP02**

For Greenhouse Sulphur Burners.

### Endosan 50 Disinfectant

10L  
20L

code **ENDO01**  
code **ENDO03**

The most advanced silver stabilised Hydrogen Peroxide on the market. Next generation ecological control and biofilm removal. See details on next page.

### Topbuxus

10 tabs  
100 tabs

code **TOPB02**  
code **TOPB01**

Box fertiliser and box blight remedy.

Strengthens box trees and provides healthy green and shiny leaves.

# EndoSan™

## BIOSECURITY IN AGRICULTURE AND HORTICULTURE

- Broad spectrum disinfectant
- Effective from 0-95 °C
- pH neutral
- Highly effective biofilm remover
- No harmful by-products
- Proven efficacy

EndoSan™ is a 50% solution of hydrogen peroxide which is stabilised using a specially formulated silver based chemistry. The stabilisation process is unique and makes EndoSan™ a powerful, highly effective, broad spectrum disinfectant that is both stable and safe. Independent testing has also proven that EndoSan™ is a highly effective bactericide, virucide, sporicide, fungicide, algacide and amoebicide. It is both chlorine and alcohol free and is non-corrosive to any materials during application.

In addition to providing unrivalled efficacy, EndoSan™ is environmentally responsible degrading into harmless water and oxygen and is odourless, colourless and tasteless.

### APPLICATION AREAS

- IRRIGATION WATER DISINFECTION
- COMPLETE BIOFILM REMOVAL
- DISINFECTION OF SURFACES, FLOORS, WALLS
- TOOLS, MACHINERY AND EQUIPMENT DISINFECTION
- TOTAL GLASSHOUSE DISINFECTION BY FOGGING
- COLD STORE DISINFECTION BY FOGGING
- SEED AND SEEDLING TREATMENT
- SOIL AND SUBSTRATE DISINFECTION
- HYDROPONICS AND HYDROCULTURE
- POST HARVEST CROP DISINFECTION
- PACKING AND PROCESS AREAS

#### Irrigation-water disinfection - 'Constant Dosing'

Starting with a clean system, the recommended dosage to prevent growth of micro-organisms is 20 to 40 ppm EndoSan™ (20 to 40ml EndoSan50 per 100L water). With EndoSan™, optimal microbiological water quality is ensured, and algae growth is prevented.
